

## Heat Recovery

# COMFORT PLUS FANS

◀ RV400B

RV1000B  
▼

**COMFORT PLUS FANS** work simply and economically, ensuring the comfort of your customers and your staff. Comfort Plus fans prevent hot air from rising and accumulating at the ceiling by recirculating it down to floor level where it is needed.

**Applications:** Supermarkets, warehouses, receiving docks, offices, retail surfaces, storage areas, etc.

### Benefits:

- ▶ Reduce heating costs by optimizing heat distribution throughout a building or a specific area
- ▶ Reduce relative humidity
- ▶ Provide better comfort to customer and staff
- ▶ Quiet and efficient
- ▶ Simple and versatile installation that allows the redistribution of ambient warm air in the building
- ▶ Perfectly adapt to all commercial and industrial environments
- ▶ Easy to clean
- ▶ Ask us how **COMFORT PLUS FANS** can solve warm air stratification problems within your building
